

**High Technology Education  
The Foundation for ECM Success  
December xx , 2016**

**10:30am – 11:30am (Mumbai) / 12 Noon – 1pm (Malaysia)**

Technology Education is critical in the foundation of sound ECM design and practices. DigiPen Institute of Technology ([www.digipen.edu](http://www.digipen.edu)), based in Redmond WA, is on the forefront of high technology education and computer design and will host the upcoming virtual meeting focused on the changing needs of IT / ECM industry.

With training facilities world-wide including Singapore, Spain, and Redmond, DigiPen is a global alliance partner of Microsoft and a designer of customized education programs for leading IT professionals. DigiPen focuses on user education computer game design, animation, robotics, and computer engineering. Mr. Alexander Comair, the Admissions Outreach Coordinator based in Redmond Washington, will review the various, outstanding opportunities and training requirements in the IT industry and the role of DigiPen in South Asia, especially the Singapore, Malaysian, and Indian Markets.

The Virtual Meeting is free of charge to both AIIM Members and Guests. Specific registration information is indicated below.
